
ID:	MHR-00062C	Title:	Maintenance Millwright
Date:	August 28, 2021	Employer:	AdvanTec Global Innovations
Location:	Chilliwack	Salary:	TBA

Job Description

Our client is looking for an experienced Maintenance Millwright to join their Maintenance Department in Chilliwack, BC.

The Maintenance Millwright will oversee the comprehensive industrial and mechanical projects for the company. The Maintenance Millwright will be involved with the installation, maintenance, and repair of industrial equipment and machinery. Using specialized tools, the Maintenance Millwright will trouble-shoot, test, align, repair, and replace machine parts as required. They may also move or relocate machinery if necessary.

Our client offers:

- Competitive compensation packages, full-time employees are eligible for benefits package and RRSP matching program.
- Employees are valued, and everyone has a voice in the organization.
- Opportunities to grow

Responsibilities

- Oversee and Perform maintenance and mechanical repairs for assigned buildings and related facilities, furnishings, and equipment. The required duties may include maintenance of machinery, painting, carpentry, plumbing, electrical, masonry, cement work, HVAC maintenance, and other related work
 - Trouble-shoot and perform maintenance and repairs on machinery and equipment
 - Clean and lubricate machinery, perform basic diagnostic tests, check the performance of the machine, and test damaged machine parts to determine whether major repairs are necessary.
 - Review and follow technical and complex machinery manuals
 - Work with equipment manuals and interacting with equipment manufacturers to keep production equipment running efficiently
 - Disassemble machine parts when transporting or repairing them, and reassemble the parts
 - Collect and store distinct machinery parts
 - Visit various manufacturing sites to assess potential issues or needs
 - Perform electrical repairs such as replacing switches and wiring; general repairs to refrigeration equipment; install/repairs of irrigation systems and water lines
 - Operate equipment necessary to complete the assigned tasks
 - Determine the requirements to carry out specific tasks or jobs
- Work through maintenance lists as required
- Perform routine walkthrough checklists for each property
- Collaborate with production workers and/or engineers when using the machines

Required Work Practices and Competencies

- 3rd or 4th Year apprentice or Journeyman Level Millwright Certification
- Proven experience as a Millwright or in a similar role
- Hands-on experience with construction equipment and machinery
